FREE COMMUNITY HEALTH TALKS

SIGNIFICANT ISSUES IN HEALTH CARE

Watching Over Young Hearts

An informative discussion exploring children's heart health, including the diagnosis and treatment of heart defects in children from pre-birth to adolescence as well as information on how diet, exercise and sports participation affect heart health.

Thursday, November 19, 2009, 6-8 p.m.

Hamden Professional Center
2560 Dixwell Avenue, Hamden

Presented by

Alan H. Friedman, MD

Chief, Pediatric Cardiology

Yale-New Haven Children's Hospital

Dr. Friedman is associate chair for the Department of Pediatrics and professor of pediatrics at Yale School of Medicine. A pediatric cardiologist, Dr. Friedman also directs the Pediatric Residency Program and the Pediatric Echocardiography Laboratory at Yale-New Haven Children's Hospital.

The author of several books and publications related to pediatric cardiology, Dr. Friedman's primary interests are in the diagnosis and management of congenital heart disease in the fetus and newborn and the use of non-invasive imaging of congenital heart disease. His additional clinical interests include general pediatric cardiology, fetal echocardiography, cardiac MRI and youth sports participation as it relates to heart health.

Program is free and open to the public. Free on-site parking is available.

To register, call **203-688-2000** or toll-free **1-888-700-6543**
