

Ultrasound: York Street Campus Social Story

Resource Developed by the Child Life Program
Yale New Haven Children's Hospital

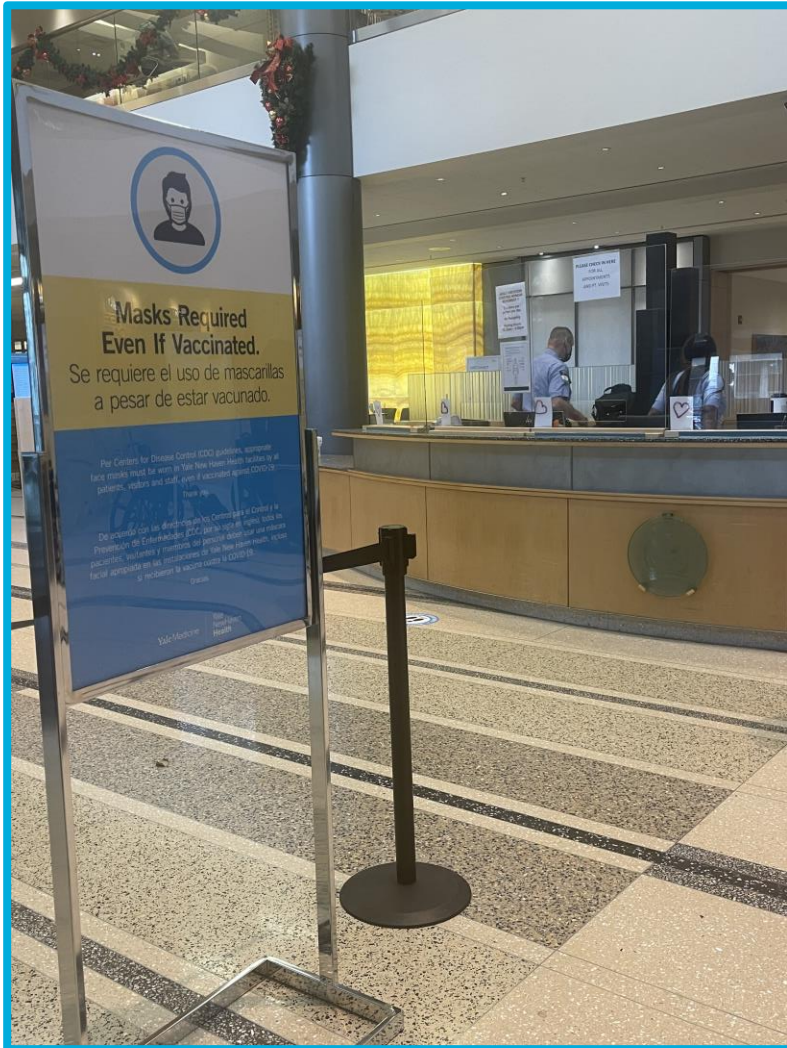

I will be coming to Yale New Haven Children's Hospital. I will come to the Smilow entrance.

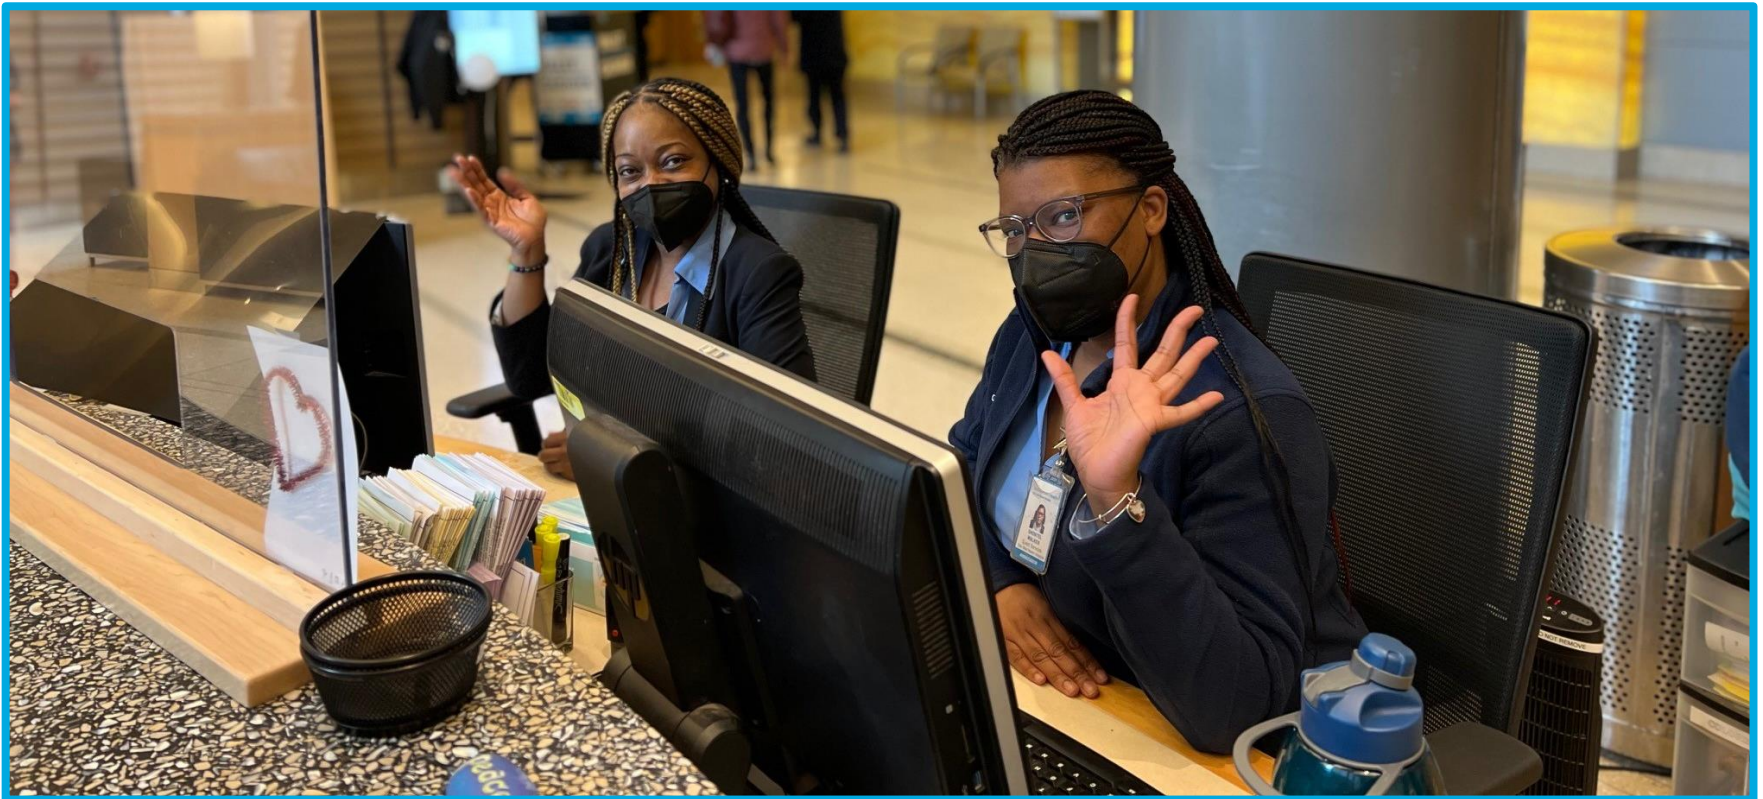

I will get out of the car at the valet.

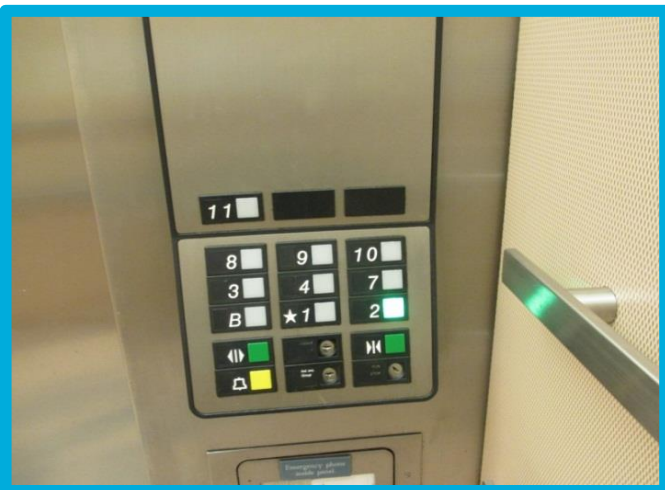

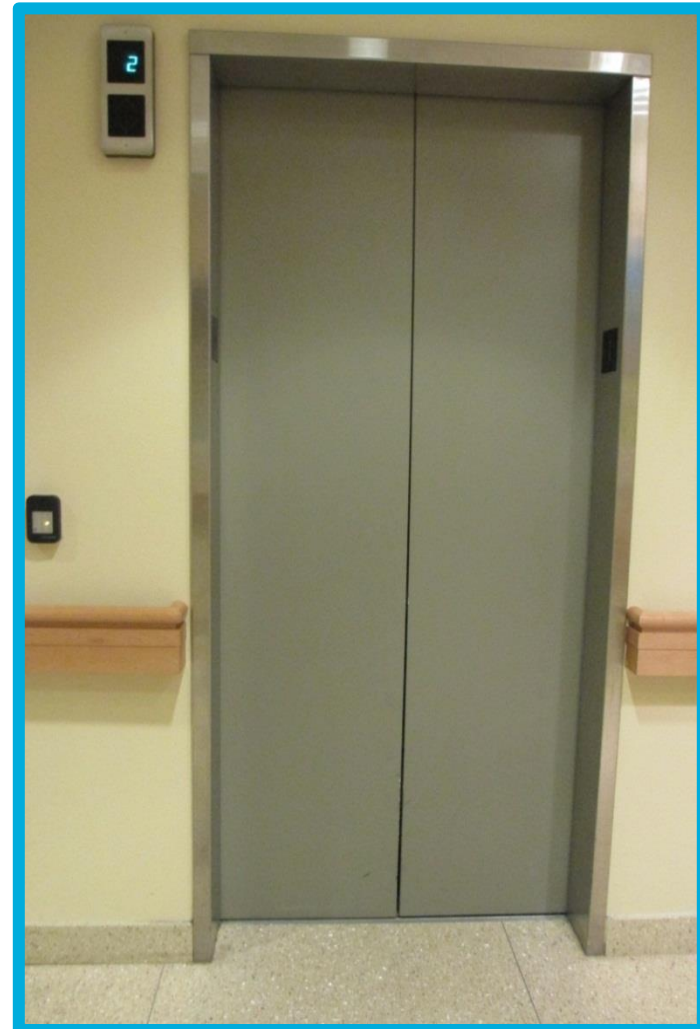

This is what I will see when I come into the doors of the hospital.

I will check in at the front desk.

I will take the elevator to the 2nd floor.

I will go to the Pediatric Specialty Center to check in.

I will check in at this desk.

I will get a bracelet with my name and birthday on it.

I will wait in the waiting room.

I can play with the train table.

I will go through these doors when my name is called.

I will walk down the hallway.

I will go to a room to have special pictures taken.

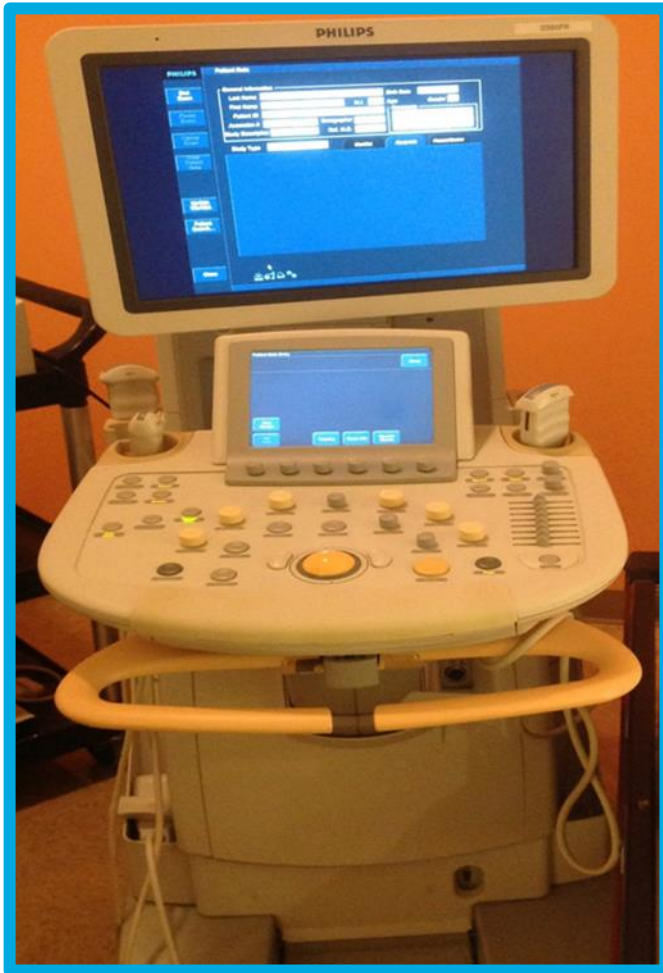

I will lay on a bed for my pictures.

This is the camera's wand that takes pictures of the inside of my body.

I see the ultrasound computer screen.

I see jelly on the camera wand.

I feel the wand press against my skin to take a picture. It will feel cold and slippery.

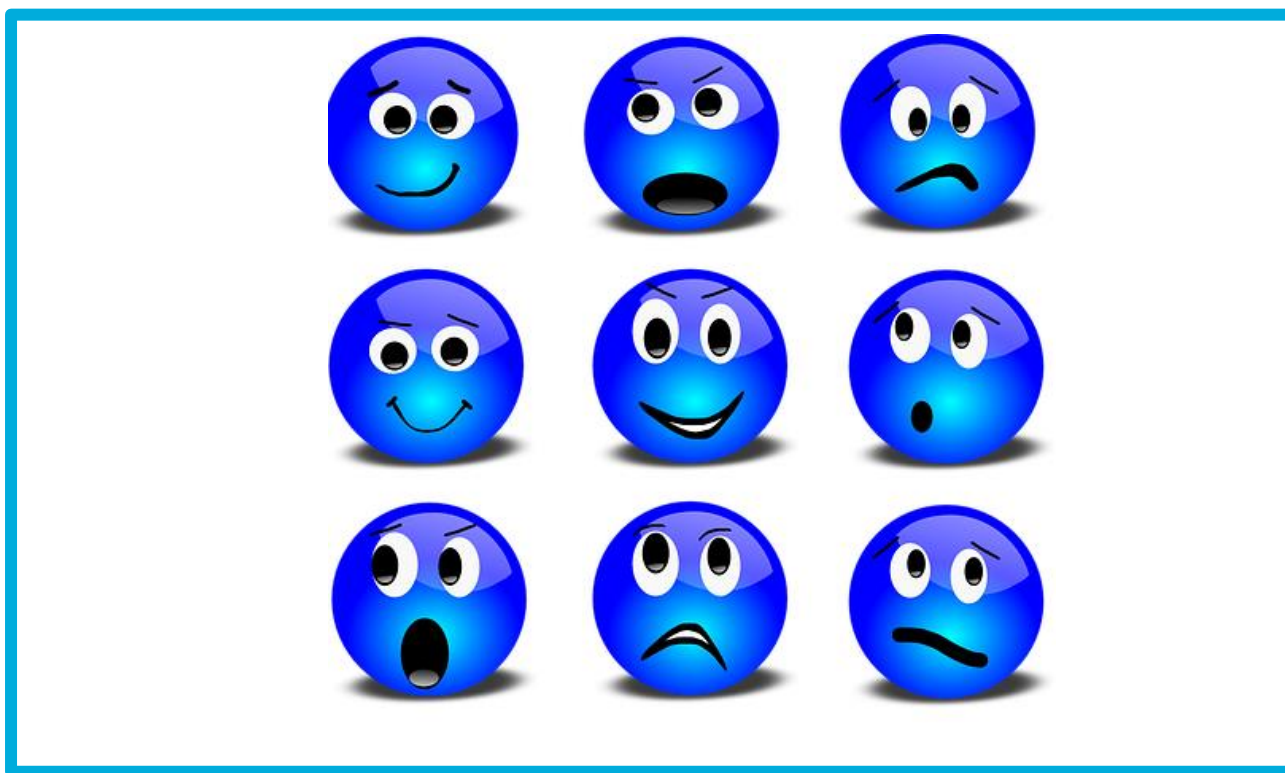

The jelly will be wiped off when the pictures are all done.

I am all done and I did a great job!

I feel ...

... about my ultrasound.

I can ask questions about my visit to the child life specialist or another staff member.

**The questions I have
are ...**

These things may help me cope better at the hospital.

One person speaks

Buzzy
